

Portable – Bucket Camera Mount

Inexpensive Moveable Video Security

Goal:

Create an inexpensive portable camera mount that can be moved as needed to respond to changing security risks.

Concept:

Use an inexpensive 5 gallon bucket filled with concrete as a base for a pipe, pole or wooden 2x4 with Videofied cameras mounted the top.

Mount parts list includes:

- Vertical Pole: metal pipe, schedule 80 PVC pipe, or wooden 2x4.
- Camera mounting brackets to affix Videofied to top of pole.
- 5 gallon bucket
- Concrete

Applications:

- Securing remote assets
- Vacant property
- Construction Sites
- Rooftops
- Heavy Construction
